

Introducing LaunchLab

Our New Monday Program!

LaunchLab: Kickstart the Week with Wonder!

We're so excited to introduce LaunchLab, our brand-new Monday program crafted to spark curiosity, foster friendships, and ignite a lifelong love of learning.

Each Monday is designed to inspire students through high-interest topics, hands-on activities, and joyful discovery—making it the perfect way to launch into a week of creativity, connection, and meaningful exploration.

What is Launch all about?

World of Wonder was founded and created to assist families in educating their children for a meaningful and joyful life. Our mission is to bring learning to life for our learners, by creating a love to learn environment. We do this by Implementing Creative Lessons, Passion based Projects, Inquiry-Based Deep dives into Thematic Units, and by Providing a Variety of Resources and Manipulatives for exploration and engagement. We develop the whole child- mind, body, and spirit with personal interaction daily, nurturing relationships and communicating personal value and worth. Nurturing a love of nature and outdoors is vital to a healthy childhood, so we spend 90 minutes outside every day.

We started in Fall of 2024 with our 3 day full day Microschool which was jam packed with learning fun! Many homeschooling families reached out to us and requested a One day microschool experience. Other learners had such a fun time in our 3 day Microschool, they wanted to add a fourth day. So for Fall of 2025 we are offering our new Monday LaunchLab. Students can take it as a stand alone Monday or add it as a fourth Microschool day. We will start the week igniting interests and sparking imagination in various topics and with many resources. Mondays will be a great way to start the week for students! They will take Deep Dives into new topics and try new experiences. Our teachers will prepare the environment for creative, hands-on learning and will prepare High Interest, Project Based lessons.

Our 7 Core Values at World of Wonder

- Igniting Creativity
- Keeping Curiosity
- Nurturing Connection
- Building Confidence
- Instilling Character
- Facilitating Communication
- Fostering Collaboration

Introducing LaunchLab

Time: 8:45 AM - 3:00 PM

November 24 off for Thanksgiving Week

**If there is a SNOW DAY on a MONDAY during the first semester or a Funeral in the Church, we can not make those days up. If this happens in the Spring semester, we will have days to make them up. We will refund the family for the missed day. If a family misses a day for sickness etc, we do not give refunds for that.

What Will Mondays Be Like?

Every Monday will be packed with engaging, high-interest activities like:

STEM

Art

Nature Exploration

Cooking

Read-Alouds

Socratic Discussions

Games

Collaboration

Free Play

Outdoor Discovery

THEME for 2025

This year our Launch Lab will focus on Traveling the World and Learning about Culture, Cuisine, Land, People, Travel, History and more! Each day will include a variety of activities- Yoga, STEM projects, Topic Deep Dives, Art Projects, Games, Reading, Writing experiences, Cooking, Trying Food, and more!
